4. Three Strikes:

- a. The Stick: Occasionally students find it hard to remain on task when seated in front of a computer. The first two times you are not on task will result in a warning. The third and any subsequent occurrences will result in lowering your final grade by 10 percentage points.
- b. The Carrot: There will be several periods of time when we are working on our large projects in class for multiple days. If you are sufficiently far along in your project, you may use either of your "freebies" to work on another school related activity.

5. Late Work and Absences

- a. If you are not able to complete assignments during the given class time, it is your responsibility to go to a computer lab at another time in order to complete any necessary work. Talk to me if you need to make arrangements.
- b. No quizzes can be made up after the next quiz is taken.
- c. If you are absent it is your responsibility to check with me to get the missing notes and assignments. I will not track you down. Missing work must be completed and turned in within a timely manner to avoid deductions.
- d. If you know you will be gone for a school function, family obligation, etc. you are responsible for letting me know and getting any assignments before you leave.
- e. You are responsible for knowing what work needs to be completed and getting all assignments turned in.
